KEY METRICS

RESEARCH

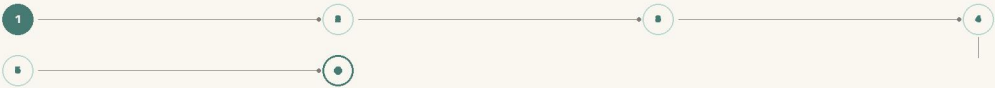

KEYWORD VALIDATION

CHECKLIST

01	Ahrefs Keyword Generator — enter main keyword	VOLUME
02	Verify 500+ monthly search volume (US)	THRESHOLD
03	Collect 10–20 supporting keywords	LSI MAP
04	Switch to Questions tab — gather FAQ content	CONTENT
05	Check Google ‘People Also Ask’	DISCOVERY
06	Target US audience — higher CPM rates	REVENUE

Data before design. Search volume before code.

PROCESS FLOW

KEY METRICS

DOMAIN

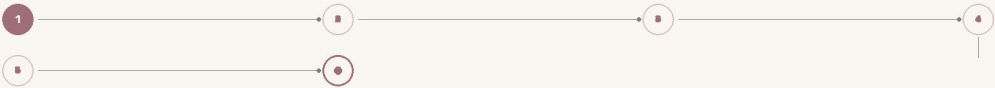

DOMAIN ACQUISITION

CHECKLIST

01	Open instantdomainsearch.com — paste keyword	SEARCH
02	Only consider .com domains — nothing else	RULE
03	Main keyword MUST be in the domain	SEO
04	Try prefixes: free, online, real, actual	VARIANTS
05	Avoid long names — short is memorable	CLARITY
06	DON'T buy until code is complete and tested	DISCIPLINE

A .com with your keyword inside is half the SEO battle.

PROCESS FLOW

KEY METRICS

SETUP

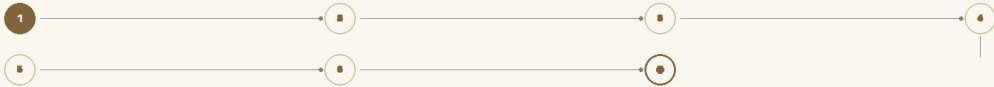

DEVELOPMENT ENVIRONMENT
